MEMORANDUM FOR: The Director of Central Intelligence

SUBJECT: Note on the Minutes IAC-M-64 (Revised)

1. The attached minutes are a revision of paragraphs 4 and 7 to take into account objections which G-2 had to the earlier edition. According to General Bolling the language in paragraph 4 is based on his telephone conversation with you.

2. He also said that the first sentence in paragraph 7 is, in fact, what G-2 agreed to and not the language of the earlier edition which read:

25X1A6a

25X1A6a "It was agreed that

25X1A9a

it being understood that

the function of this officer was to pull together the chiefs of the various intelligence organizations for their mutual benefit in avoiding duplication of effort detrimental to each other and our objectives."
